A modo de síntesis podemos decir que:

- en inglés hay 7 subject pronouns: I, you, ...
- el verbo 'be' tiene 3 conjugaciones en el presente: am, ...
- estas conjugaciones tienen una forma larga y una forma corta: am = 'm; ...
- para hacer oraciones negativas usamos la partícula not inmediatamente después de 'be':
am not, ...
Ejemplos: I **am not** an engineer.
 Julia **is not** the game art team leader.
 ...
- también hay formas cortas para el negativo: am not = 'm not, ...
Ejemplos: I **'m not** an engineer.
 Julia **isn't** the game art team leader.
 ...
- los possessive adjectives o adjetivos posesivos, sirven para hablar de lo que nos pertenece y que a cada personal pronoun le corresponde un possessive adjective.
Ejemplos: My office is in Melbourne.
